

Alberta Lipedema Education Week July 3rd-7th 2017

LIPeDEMA 101

Learn Why Not All Fat is Created Equal

KEYNOTE SPEAKER
DR. JOSEF STUTZ

Dr. Stutz is a vascular surgeon who has been successfully treating lipedema with liposuction for twenty years. He pioneered the use of water-jet assisted liposuction (WAL), a method which had previously been used for surgery on soft tissues such as the brain and liver. Using WAL, Dr. Stutz is able to operate on even late-stage lipo-lymphedema patients

Lipedema affects up to 11% of women worldwide, that's **over 180,000 women in Alberta alone.**

We must raise awareness to provide diagnosis and treatment!
